

What went well

Well

What to improve

Writing
smaller tasks
into the sprint
backlog

Making
deadlines for
steady
improvement

Constantly
analyze the
project to
understand what
needs to be
changed

Failure

Actions for improvement

Breaking down big stories/tasks into tiny ones for better time management and better story point evaluation

Make deadlines for the more important issues to ensure sprints steady improvement

Analyze the project to make sure no functionality is missing

Action
